**Subject:** RE: Dewey-Burdock Project

I got your other emails on this. Alfreda was at the briefing with Shaun this morning regarding an update on this matter, but for whatever reason she didn't raise any tribal issues.

Shaun mentioned that during next Wednesday's meeting with Powertech, which is on your calendar (and Lucita's), Powertech will have its attorney on the phone. Previously we thought it'd be just Shaun and the CEO; now we know there will be more people, including an attorney. We can talk later today or Monday about how to staff that meeting - my recommendation would be for Lucita to attend, in addition to one of us. [REDACTED] **Ex. 6 Personal Privacy (PP)** [REDACTED] g

conf. [REDACTED] On the other hand, I realize I've been the one involved with Dewey Burdock recently, so it might be easier for me to continue my involvement and participate in this meeting by phone. I'm open to however you want to handle this, and it may be that you want to be there in the room with Shaun. Let's discuss later today or Monday.

Paul Logan  
Deputy Regional Counsel | EPA Region 8

Mr. McGrath,

Attached is a proposed agenda for our upcoming meeting next week. We would like to bring one other person along with us; Hal Demuth, who is a hydrogeologist with Petrotek Engineering and is extensively familiar with our UIC permit applications.

We would like to have a phone line available, so also Bob Van Voorhees a legal consultant working for Powertech can participate and as he cannot be there in person.

Please feel free to let us know of anything else you would like to discuss.

Looking forward to meeting you next week and discussion or project and permitting.

Sincerely,

John
